

# Custom Lifts

**Strong and ultra-safe lift installs quickly and easily wherever there's a floor.**

Premier Mounts' new lift combines unmatched safety, elegant simplicity, rugged durability, and user convenience to make it the best lift of its kind in the industry. Completely self-contained and easy to install virtually anywhere, it rises to give customers a great view of the screen for business or entertainment, then lowers for a great view of the surroundings when they're finished.

- Can control up to four lifts and three devices
- Ultra safe – no exposed parts or wires
- Hinged cabinet top or floating lift top option. Floating top can be made of any material including stainless steel for outdoor use.
- One of the quietest lifts on the market
- Center single or dual lift mechanisms available
- Single lift supports up to 180 lbs. (Dual lift can support up to 360 lbs!)
- All-steel floorboard distributes the weight equally
- No need to screw into rear structure
- Integrated PEM nuts secure the lift(s) to the floorboard
- Fits into any kind of container to match décor. Works great in a pony wall.
- The tallest reach in the industry
- RS232 compliant
